THE POLITICAL CAMPAIGN.

Hon. Wm. A. Wheeler in the Green Mountain State.

Republican Rally in St. Albans.

A Rousing Speech by the Next Vice President.

The Spirit of the Democratic Party Reviewed.

The Southern Rebels and their Northern Allies.

St. Albans, Vt., August 25.—The Republican rally to-night was largely attended, but a heavy thunder shower interfered somewhat with the original arrangements and the proposed illumination. Hon. Wm. A. Wheeler arrived by special train from the White Mountains at 4:15. On his arrival a salute was fired. At 9 P. M. he was serenaded by the St. Albans Brigade Band. Mr. Wheeler appeared on the balcony of the hotel, and was greeted with tremendous cheers. He was introduced by Mr. Edward A. Smith as one of the noblest statesmen of the Republic. Mr. Wheeler spoke as follows:

Republicans of St. Albans—You honor the cause of which I just now am a prominent representative. I was placed in nomination as a Republican nominee for Vice President in the national convention by the action of the States of Vermont and Massachusetts. It is the greatest honor of my life that the Republicans of these States deem me sufficiently grounded in New England faith to be one of the representatives of their ideas in the pending canvass. (Applause.) In the matter of my faith I trust they have made no mistake. (Applause.) I believe in New England and I believe in Plymouth Rock; for they are convertible terms. One of the most gifted of New England women has said that Plymouth Rock is no quartz. It is a perfect stone cut out of the mountain with hands, and hands cannot prevent it from becoming a great mountain, filling the whole earth. Every church, every school house, every town house from the Atlantic to the Pacific has Plymouth Rock for its foundation stone. Wherever freedom aims a musket, or raises a standard, or sings a song, or makes a protest, there is Plymouth Rock freedom. The church, the school house, the town house—these, my friends, form the very

Cardinal Principles of the Republican Party.

I have often thought, and often said, that the commonwealth of Vermont composes and illustrates the complete realization of the highest ideal of a Republican form of government. Where else can you find such general intelligence, the result of your free popular system of education? Where so much of fidelity and economy in the administration of State affairs? Where so much respect for the civil rights of each and all people as in Vermont? It is the mission of the Republican party to confer upon all the people of this country, in all the States and in all the Territories, the inestimable privileges which you in Vermont enjoy. It is a duty to which in this Centennial year of our nation we ought to address ourselves with renewed attention and fidelity. I have no purpose here to-night, my friends, to recall the memorable conflict through which this nation has passed, and which made American arms forever illustrious. But let us never forget the obligations resting upon us to secure the benefits of that great conflict for ourselves and those who follow after us, and never, my friends, were these obligations more apparent and imperative than now. We are already engaged in another conflict with the opponents of the party which saved the nation, and which to-day protects its integrity and guards its honor. As in 1860, we are once more, my friends,

Face to Face with an United South,

with the Democratic part of the North as its subservient and pliant alley. In every late slave State in the Union, where this Confederate party is dominant, it claims and may receive one hundred and thirty votes in the electoral college. It has complete control of the lower House, and the balance of power in the Senate. There is not to-day in those late slave States any man holding a prominent position who was not identified in the great struggle against the Government. Not even in the State of Kentucky can you find a man in any position whatever who was not engaged on the rebel side. This is the condition of the South to-day. I have sat for months during last winter in Congress by the side of sixty-one men who a few years ago, with arms in their hands, were engaged in an attempt to break up the Government. Now, I have heard these men defend the

Hellish Atrocities of Libby, Andersonville and Salisbury.

I have heard Lincoln maligned. I have heard defended the right of a Virginia Justice of the Peace to detain and open the mails of the United States. Can you tell me where is the difference in spirit which twenty years ago led Missouri border ruffians into Kansas, and the massacre at Hamburg, where a regularly organized militia company was first disarmed and then murdered in cold blood, in order that the white race might assert their superiority? My official relations have called me during the past two or three years into the Southern States, and I tell you what I know, my friends, of the real feeling of the Southern people regarding the reconstruction acts. They regard the amendments to the Constitution in reference to slavery and the laws for the protection of freedmen as the French provinces did their cession to Prussia at the point of the bayonet. It is to the South with this spirit, and with the Democratic party of the North as its pliant ally, that we are asked to turn over the Government of the United States, with all its powers of legislation, with all its machinery of taxation. No such proposition for audacity has its parallel in the history of the country. What is

The Spirit of the Democratic Party.

Do you want to prove what the Democratic party of the North still is? Go to Washington, and see fifty soldiers, crippled in the service of the Union, turned out of the House to make room for so many rebel soldiers. This is the evidence of the spirit of the Northern Democracy.

My friends, we confront the old issue. You must not underrate the strength of the South and its allies in the North. You ask me if it can be avoided. I tell you yes it can be avoided in the old way, and in the old way only. You must not underrate the strength of this alliance. I have an abiding faith that the conscience of the nation will be sufficiently awakened to avert this great peril. Under the lead of the gallant Hayes, who periled his life on the field of battle—a modest man, a plain man, a man who has evinced great ability in his administration of the affairs of the great State of Ohio—under Hayes the Republican party will again achieve a new triumph. (Applause.) What shall be your duty in this canvass? I tell you, freemen of Vermont, what I know. The Democrats are making great efforts to reduce the Republican majority in this State. Will you permit this, friends? (Voices "No, no.") The banner of Vermont was never yet trailed on the battle field. Let your ballots protect the work so effectively done by your bayonets at Gettysburg and on many a field of strife. As you value good government, as you value the sacrifices of the past, as you hope for the future, let your devotion to the cause of the Union be proved by your ballots on the first Tuesday of November next. May the star which never sets dawn with new effulgence to light the other States to victory. (Great and prolonged applause.)

STORM NOTES.

Houses and Cellars Flooded in Wheeling.

Wheeling, August 25.—The heaviest rain storm for several years passed over this section last night, lasting three hours without intermission, flooding houses and cellars on Main street, making considerable loss to merchants who had goods stored in them. Bridges in the southern portion of the city were washed away. Cornfields throughout this section were badly damaged.

The Sioux Peace Commissioners.

Chicago, August 25.—The Peace Commissioners, some half dozen in number, arrived here to-day, *en route* to Omaha and points west, to talk with the Sioux Indians. Bishop Whipple will arrive and join them this evening, and they will leave within twenty-four hours on their mission. They are furnished with instructions from the Interior department, which, it is said, are that they shall inform the Indians that they must return to their reservations, stop depredations on Black Hills miners, or submit to extermination.

NEWS FROM ABROAD.

The Freshest Gleanings from the Old World.

THE WAR IN TURKEY.

Berlin, August 25.—Germany has decided to send an officer to the Turkish headquarters to report any further cruelties.

The Porte refuses to grant an armistice until the preliminaries for peace are settled.

Zara, August 25.—The Turks yesterday violated the Austrian frontier near Ossoinik, seized ninety sheep and cattle, and fired upon peasants, wounding one. Another was captured and decapitated. They also fired at the Austrian gen d' armes and retreated into their own territory with the booty. Two companies of Austrian troops have arrived at Ossoinik.

Belgrade, August 25.—At a conference last night between Prince Milan and the foreign Consuls the latter urged peace. The Prince declared his readiness to conclude peace on the basis of the *status antebellum*.

Vienna, August 25.—The *Political Correspondence* publishes the following particulars concerning the overtures of Prince Milan for Peace: Full justice has been done to the military honor by the six days' fighting at Alexinatz, where there is no prospect of success for either side. A continuance of the struggle would only involve a useless sacrifice of life and further losses. Therefore the Prince summoned the representatives of the guaranteeing powers, declared his readiness gratefully to accept their good offices, and offered to respond to the counsels of Europe. He requested them to use their influence to re-establish the good understanding between himself and the Porte, and procure a cessation of hostilities everywhere, including Montenegro. The foreign representatives immediately communicated by telegraph with their respective Governments.

London, August 26.—A special dispatch from Belgrade says Gen. Tchernayeff has telegraphed to Prince Milan that the Servians won a great victory on Thursday. Gen. Horvotovich abandoned the pursuit of the Turks at Tresibaba, and attacked the rear of the Turkish right wing. Tchernayeff at the same time attacked the Turks in front. The Turks were routed, with the loss, according to Tchernayeff's dispatch, of 15,000 killed, wounded and prisoners. Thirty-one Russian officers were killed in this battle.

GREAT BRITAIN.

London, August 25.—The sounding for the channel tunnel to connect England and France will be finished by the end of August. The engineers report the results very satisfactory.

SPAIN.

Madrid, August 25.—There are rumors that a political conspiracy has been discovered in Pampeluna. It is stated that arrests have been made. The garrisons of Upper Navarre have been reinforced.

DUST TO DUST.

The Last Rites Over the Remains of Speaker Kerr.

New Albany, Ind., August 25.—During the forenoon to-day all the business houses in the city were closed as a token of respect for the dead Speaker, and nearly the entire population was on the streets, either taking part in the ceremonies or witnessing the grand pageant which was formed by the various societies in the city. At the appointed hour the various organizations moved to Spring street, taking their places in the line assigned them by the Chief Marshal. There were about twenty of these societies, including Masons, Odd Fellows, workingmen, the German societies, the St. Patrick's benevolent societies, Francaise, and many others, with the members of the bar in this city and Louisville, Jeffersonville and New Albany, the Congressional escort from Washington, State officers and other dignitaries from abroad. The procession was one of the largest ever witnessed in this section, and was only exceeded by the funeral procession of Governor Willard, when a large body of the military of Kentucky and Indiana took part. The arrangements were most admirable, and everything satisfactory. Many of the houses along the line of march were heavily draped in black, testifying the esteem in which the dead Speaker was held by the community. During the movement of the procession the bells of the city were tolled. The streets on both sides were crowded with people moving in the direction of the family mansion. Upon the arrival of the procession at the house it was halted, when the funeral services were performed by Rev. S. Conn, of the First Presbyterian church, preaching the discourse from Proverb, xxii, 1. The sermon was a feeling and touching one, and when referring to the life and character of the deceased and the purity of character which he ever maintained, there were audible sobs from many present. The preacher paid a most eloquent tribute to the character of the deceased, as he had learned from the people who associated with Mr. Kerr during his entire life in this city. After the close of the services the burial case containing the remains was removed, and the line of march was taken up, and proceeded to the solemn music of a half dozen bands to the Northern Cemetery. At the grove the burial rites of the Masonic fraternity were recited by the officers of Jefferson Lodge No. 104, of which he was a member. The grounds in which Mr. Kerr is buried adjoin those where Gov. Willard is interred, and in one of the most conspicuous and beautiful spots in the cemetery. The tomb of Michael C. Kerr will become the shrine at which the lovers of truth, honor and courage will kneel in the future. Among the attendants upon the ceremonies were Gov. Hendricks and several State officers, and a large number of citizens of Indiana, Gen. Ekin and staff, of the Department of the South, and a number of distinguished citizens of Kentucky.

THE BLACK HILLS.

A Party of Whites Attacked by Indians—Encouraging News from the Gold Fields.

Cheyenne, August 25.—A party of fifteen men, on the return trip from Deadwood, were attacked by Indians on the 20th inst., ten miles beyond Sage Creek, where Lieut. Taylor's company of the Twenty-third Infantry is stationed. Two horses were killed, three wounded and six stolen. The men escaped unhurt into the station, and Lieut. Taylor sent out a detachment, which recovered the wagons and property.

The latest news by the Black Hills *Pioneer*, published at Deadwood, is encouraging beyond measure. Eight hundred ounces of gold dust arrived in this city to-day, and yesterday a solid piece of quartz, consigned to the Pacific coast for exhibition, which bristles with free gold all over. The piece weighs about twenty-five pounds, and is estimated to contain one hundred dollars in gold. This is from the Alpha mine, and specimens of some of the ore are now on exhibition in Philadelphia in the name of W. C. Bennett.

THE GALLOWS.

A Bungling Execution at Dayton, Ohio.

Dayton, August 25.—James Murphy was executed this afternoon for the murder of William Dawson, in this city, on the 1st of September, a year ago. The murder resulted from Murphy, with several others, coming to a wedding party, and desiring to force an entrance, they were ordered away by Dawson, and afterward in revenge enticed him from the hall where the party was held into the street, where he was set upon by them. In the midst of the struggle Murphy drew a dagger and ran it into Dawson's heart. He was captured by the police, and had two trials, being convicted and sentenced on the 25th of May last. He maintained perfect calmness to the last moment. Last night he made a statement, confessing the crime, which he had hitherto denied. The drop fell at eighteen minutes to two o'clock, but the rope prepared snapped, and a new one was obtained. The second fall, six minutes later, dislocated his neck, and he died in nineteen minutes.

She was in good condition and valued at $200,000; insured in this city, but not up to the full value. The cargo was valuable. The crew was saved.

WORSHIP IN THE WOODS.

Mt. Sewickley.

Mt. Sewickley, August 24, 1876.

The sermon preached last night by Rev. J. R. Mills was a very fine effort. The discourse was based on the text found in the fourteenth verse of the fourth chapter of John.

The exercises this morning began at half past six o'clock by Rev. Bell conducting public worship. The attendance at so early an hour was very good. Rev. E. B. Snyder conducted the experience meeting, which was exceedingly interesting, no less than fifty-one persons availing themselves of the opportunity to relate their Christian experience, and beside that there were sixteen pieces sang and two prayers made, all in a little over an hour, thus illustrating the feelings of those who attended the meeting. Rev. Dr. J. A. Swaney preached an excellent discourse from Gal. 2: 20. He received the undivided attention of his auditors.

The children's meeting at half-past one was under the supervision of Rev. L. McGuire, who delighted the little ones for an hour or so with a happy address, which, together with the singing of several familiar spiritual songs, made the meeting a most interesting one.

The elderly ladies' prayer meeting was held at cottage 69, David Challinor. Mrs. Challinor being unable to attend, desired that the meeting should be held there for her benefit. It was largely attended and highly beneficial.

The young ladies held their meeting at the tent assigned for that purpose, and it was an impressive service.

The three o'clock sermon was preached by Rev. J. B. Gray.

The additions to the ministerial ranks to-day were Revs. J. W. Kessler, J. G. Goggly, D. A. McCready, Dr. Swaney and J. Morse.

The attendance at the meetings thus far has been very good, notwithstanding that there are several other meetings in progress in the neighborhood of the city, and it is expected that the attendance will be very large next week.

Castle Shannon.

Castle Shannon, Aug. 25, 1876.

The eighth day's exercises began this morning at 9 o'clock with a red-hot experience meeting, conducted by Rev. W. B. Parsons, of Ohio. At 10:50 the Tennesseans sang "I've been Redeemed," "Crying Amen." At 11 o'clock Rev. W. Wallace delivered a searching sermon from Luke xix: 42, in which he showed, first, that the Gospel brings peace; second, this Gospel must be known to save; third, there is a time given in which it is to be known; fourth, a rejection of this Gospel will bring eternal ruin. At 2:50 the Tennesseans treated the audience to some choice selections, which they rendered in the most exquisite manner to the delight of all present. At 3 o'clock P. M. Rev. W. R. Parsons delivered an excellent discourse from 1 Cor. 1: 2, 3, in which he showed, first, the great elements of Christian experience, faith, hope and love; second, the developments of these grand truths in the soul; third, the object of our enjoyment of religion is to comfort and save others. At 7 o'clock the Tennesseeans sang some of their sacred melodies to the delight of all present. At 7:45 Rev. John Cowl, D. D., delivered a powerful discourse on the Gospel theme of salvation, to a large and attentive audience. The programme for Sabbath services is as follows: First, sunrise prayer meeting; second, Sabbath school services at 8 o'clock A. M.; third, love-feast from 9 to 10:30; fourth, service of song by The Tennesseans from 10:30 to 11; fifth, preaching from 11 to 12 o'clock M. by Rev. L. W. Bates, D. D., of Baltimore. Afternoon service: First, a service in the German language at 1:30 P. M. by Rev. W. Miller, of Pittsburgh, Pa.; second, a service of sacred song from 3 to 3:30; third, preaching at 3:30 o'clock, by Rev. S. R. Frazer, pastor of the Third U. P. church of Pittsburgh, Pa.; fourth, service of song by the Tennesseans from 7 to 7:30 in the evening; fifth, preaching at 7:30 by Rev. W. R. Parsons, a former President of the Ohio Conference. The exercises of the day will be of the highest order. The spiritual interests of the meeting are daily increasing, and the friends of Christianity are looking for the most desirable results. All lovers of Southern sacred melody should not fail to hear these renowned Tennessean Revival Vocalists in the tented grove. The cars on the Castle Shannon railroad will run about every half hour, from the new incline on Carson street, South Side, to the encampment. Ample accommodations for persons and horses on the encampment.

Arnold Station.

Allegheny Valley Camp Ground,
Friday, August 25, 1875.

This has been another most beautiful day, and seems to have drawn many new faces to the ground. Each arriving train contributed to swell the number. It seems that the attraction is unabated, and everything promises a most profitable and successful meeting.

The first service of the day commenced at 8 o'clock in the morning, and assumed the form of a general class meeting, under the leadership of the presiding elder, and was characterized by zeal and deep feeling.

At 10¼ o'clock public service was held at the main stand, the Rev. W. Pitt Turner, of Trinity Church, preaching from the text 1st Timothy i: 15—"This is a faithful saying and worthy of all acceptation, that Christ Jesus came into the world to save sinners." The theme of the discourse was "The advent of Christ," and was certainly treated in an original, thoughtful and eloquent manner. The audience gave earnest and close attention to the speaker during the entire sermon.

In the afternoon the Rev. R. T. Miller, of Liberty street charge, occupied the pulpit, selecting his text from Romans vi: 22—"But now, being made free from sin, and become the servants of God, ye have your fruit unto righteousness, and the end everlasting life."

The sermon attracted very general attention, and was regarded as one of great force.

At seven o'clock a general prayer meeting was held in the large tent, and this was followed by a sermon from Rev. R. W. Cartwright, of this neighborhood.

The meeting seems growing in interest, and promises to be successful in every way. There seems to be entire harmony among ministers and people, and a desire to promote the interests of religion in all its departments.

Rev. C. W. Smith will preach at two o'clock, P. M., Saturday. The only announcements for Sunday yet made are that Rev. B. F. Brooke, D. D., will preach at 10½ o'clock, A. M., and Rev. C. W. Smith at two o'clock, P. M., and it is expected that the singing will be led by Mr. George M. Alexander.

Monongahela Camp Meeting.

By taking the trains on the P., V. & C. Railway, from Fourth avenue and Try street, passengers can reach the camp ground without the inconvenience of a long, hot walk, and will avoid a river transfer. The station is at the entrance of the grounds. Round trip tickets only 40 cents.

The Only Direct Route to the Monongahela Camp Meeting.

The trains on the Pittsburgh, Virginia & Charleston Railway run direct to the camp from Fourth avenue and Try street, at 8:30 and 11:15 A. M., and 3:57 and 5:52 P. M. Round trip tickets only 40 cents.

No services will be held in the North Avenue and Arch street M. E. churches, Allegheny, to-morrow—owing to the camp meeting at Mt. Sewickley.

Methodists must go to camp meeting or go without the gospel to-morrow; at least some of the churches acting on that principle have shut up shop for the day.

The Central Presbyterian church, Smithfield street, has been handsomely refrescoed and other repairs have been made, so that it now presents an inviting appearance. Preaching on Sabbath at 10½ A. M., by Rev. F. Leroy Senour.

Stephen Thomoff, a native of Bulgaria and a convert from the Greek church, will lecture in the Smithfield street M. E. church on Sunday evening, Aug. 27th, on "Christianity in Bulgaria, and the influence of the present war on its future."

Rev. Thos. H. Hanna, late of the Second U. P. church, and now of Xenia, Ohio, is exchanging pulpits for a few Sabbaths with Rev. R. B. Ewing, D. D., of the Sixth U. P. church, East End. Dr. Ewing was for several years pastor in Xenia.

Rev. Dr. Moorehead, late of the Fourth U. P. Church, Allegheny, and now professor in the Xenia U. P. Theological Seminary, lately declined a call to the U. P. Church, Springfield, Ohio, of which Rev. Jos. Clokey, D. D., was many years pastor.

Rev. S. S. White, the very promising young pastor of the Tenth U. P. Church, Philadelphia, died on the 16th at New Concord, O., of Typhoid Fever, after only four days illness. He was much beloved by all who knew him. Diligent at work; early at rest.

A revival is in progress in Carson street M. E. church, Rev. R. Morrow, pastor. Some twenty-nine have been converted and joined the church, and the work is still advancing. Many have been converted who have not yet connected themselves with the church.

The Second Presbyterian church has been refrescoed and otherwise repaired. There will be preaching in the lecture room to-morrow and the auditorium will be occupied on the following Sabbath. The Lord's Supper will be administered on the second Sabbath of September.

Rev. J. M. Fulton, pastor elect of the Fourth U. P. Church, Allegheny, will preach in that place to-morrow morning at 10½, and in the evening at 7½ o'clock. Mr. Fulton received a very hearty and unanimous call from this congregation on last Wednesday evening, and it is to be hoped that he may see his way clear to accept.

Mrs. Bishop Janes died at her family residence in New York, August 13, aged 68 years. She was long afflicted and died in great peace. This estimable lady was the daughter of the late Louis Thibon. She leaves a son and two daughters, one of whom is the wife of Rev. C. E. Harris, pastor of Allen street church, New York. Bishop Janes is entitled to, and will receive the sympathies of the church for his great bereavement.

The U. P. church at Scottsville, Beaver county, Pa., has extended a call to Rev. S. Collins, of the U. P. Board of Publication, to become their pastor. In addition to his other duties he has been supplying their pulpit for two and a half years past. This is the place where Rev. J. W. Witherspoon and the late eminent Rev. Dr. Rodgers, of Allegheny, first began their pastoral work—the former about 1861, and the latter about 1833. A good ancestry.

If the effect of the hot weather on preachers and hearers in the torrid zone is the same as in this latitude, we don't wonder that the inhabitants have little religion that requires thought and effort. Are our increasing "vacation" and absentee habits necessary, rational or right? The minister and teachers absent; parental, Sabbath school and church-going influences relaxed; vice and temptation unremitted—no "vacation" then—the effect, general and particular, cannot but be bad. The remedy is patent.

The *United Presbyterian* deprecates the effect of a Sabbath evening train (they now have a Sabbath morning train) from Leetsdale to this city and back, on the Fort Wayne road, and thinks the idlers about the city would avail themselves of it to visit the different places below the city, to the annoyance of the people, and the detriment of good order and good morals generally. Is this not an argument against all Sabbath trains? Doubtless, people coming to the city often misbehave equally with those going from it. Besides, ought not the church-goers to patronize the churches in their respective neighborhoods, and so build up good society at home, instead of travelling on the church train to reach a city church for morning service only?

Would You Recreate?

Go to the Valley Camp Meeting. Such a vacation would do your body and soul good.

There were reports received from the various wards comprising the club, and all were of the most encouraging character. A committee was appointed to procure a hall. The Secretary was instructed to notify all committees to meet at Jos. Mitchell's office this (Saturday) evening at eight o'clock, for the purpose of organization.

The Proposed New Routes.

To the Editors of the Pittsburgh Gazette:

We notice with much satisfaction the impartial and statesmanlike view taken by you of the subject of discrimination and the remedy therefor, and agree with you that competition is the most peaceful and perfect solution of the discrimination trouble; and while you say that it is the policy of all railroads to require non-conflicting points to pay the losses sustained at competing points, is it not clearly and imperatively the duty of our citizens to assist in placing this city on the list of competing or conflicting points, by the construction of a new railroad, and can we expect any permanent advancement of commercial interests until so desirable an object has been attained? Having reached this conclusion it is certainly due to the business men and citizens of the community, so largely interested, that the question of the location of the new out-let should be wisely determined, and that no hasty or inconsiderate action be taken until the matter has been fairly and thoroughly canvassed, and that laying aside all prejudices, and private interest, we shall invite the aid and cooperation of men possessing the clearest perception of our necessity, and to assist them, the best engineering skill attainable.

It must be taken into consideration that this road is not to be built simply for an emergency, as though we were going into a military campaign into an enemies country, and accept anything in the shape of a railroad that will receive freight for the time being, or until rival lines, by reducing their rates, absorb all the business and leave it a stranded wreck. In our view the new policy would be to secure the best possible location as to grades, curves and distances, as well as cost of construction with connections that will insure permanency, a road that will be able to compete successfully with any other line now in operation or that may hereafter be constructed. The mistakes in the location of other roads in Western Pennsylvania and Eastern Ohio, now apparent to all and which cannot be corrected without great additional expense, are sufficient warning to lead us to act more cautiously and to defer decision as to location until we have the fullest information on all the points involved.

I am among those who believe that a railroad connecting with the Baltimore & Ohio at this point, and with the Atlantic & Great Western and Lake Shore road at Youngstown, Ohio, affords the best guarantee of relief from present difficulties, and if such a road can be built on the water line of our river at reasonable expense the matter of grades should settle the question of location. While it is no doubt true that the B. & O. R. R., has failed so far to meet the expectations of our citizens in regard to freight charges, yet it must be remembered that it has no western outlet from this city, and therefore not in position as a competitor, for western freight, but with a connecting link to Youngstown, open not only to it but also the New York lines, the traffic would no doubt be so large as to excite the most active competition.

Let the Chamber of Commerce therefore, through its committee, with the earnest support of our business men and citizens, employ engineers of the best skill to go over the projected lines and submit the result of their examinations with the fullest information as to location and relative cost, and after decision is made we think there is yet sufficient capital controlled by public spirited men in this community to insure the immediate construction of the road.

Duff's College.

This institution affords unusual facilities for acquiring a thorough and systematic business education. Its past success and efficiency guarantee its future character and standing. The Messrs. Duff, who are the owners, have had many years of business training and experience, which eminently qualify them for imparting to others the principles and practice of bookkeeping, commercial science and kindred branches. The reputation of this College for scientific and successful methods of instruction is national. Wm. H. Duff, who is an elegant and accomplished penman, is at the head of the Penmanship Department, and his assistants are skilled and experienced instructors. We cheerfully commend this institution. See card.

Campaign of 1876.

Yesterday, while taking a stroll on Wood street to see what was worth seeing, we found what was well worth quite a trip to see. That which especially engaged our attention was the beautiful and appropriate Caps and Capes for marching clubs at the well-known house of R. H. Palmer & Co., No. 115 Wood street. On inquiry we learned that this house is now engaged in making this branch of trade a specialty, and right well are they doing it. They are prepared to furnish on very short notice caps, capes, torches and all other paraphernalia required by marching clubs of the most appropriate devices and on the most reasonable terms.

The Western University.

The facilities now offered by the University in the way of Cabinets, Libraries, Chemical and Philosophical Appratus, Military Drill, new buildings and increased endowments, are such that there can be no question as to the advantages to be derived by our citizens and all who embrace the opportunities offered; and we trust that Pittsburgh will honor and liberally support the institution which has done and is still doing so much for the advancement of the young men in our midst.

THE EXPOSITION.

The Show Improving—New Attractions.

A visit to the Exposition building yesterday convinces us that the show has wonderfully improved within the past two or three days. The space unoccupied on Monday is rapidly being filled up, and those who visit the show to-day will find it fully equal to that of last year in attractions. The managers have notified those to whom space was alloted who have not as yet occupied it, that unless it was occupied within the next week they would forfeit their right to it and it would be granted to other applicants, of whom there are many.

The Art Gallery is rapidly filling up, and the pictures this year are much better, generally, than those of last year. Floral Hall is complete and is now one of the most attractive features of the show. The skull of Murray, the murder, is on exhibition, it having been given to the Managers by Sheriff Fife. The infant prodigy, four years old, who takes a watch apart and puts it together again, is at the Exposition.

The Great Western Band will be in attendance this afternoon.

The attendance was larger last night than on any previous occasion.

The pickle man yesterday put in his wares and made a pretty pickle of it.

There were a number of stands put up in the main Hall yesterday. The exhibitors are rapidly filling up their space.

As a promenade hall the "show" seems to be peculiarly attractive to the young folks who were out in full force last night.

The Art Gallery is a rare treat now. Yesterday a magnificent painting representative of a scene in Hamlet, was hung, and many other additions made to the collection.

The finishing touches were put on Floral Hall yesterday. It now looks like a section of Fairy Land with its plants, flowers fountain and cascade. It is a favorite place for young folks.

If the weather is favorable, Prof. Gilbert will make another tour to the clouds this afternoon. He will be sent off with the sounds of sweet music floating in his ears from the Great Western Band.

Great Accommodation.

Twelve trains daily leave Union Depot for Valley Camp Meeting.

The Citizens' Bath Company.

It is well that we should imitate Eastern nations in their virtues, as truth, goodness and cleanliness, which are akin to Godliness, are flowers divine, grow on what soil they will. Our citizens are again afforded an opportunity to enjoy the exhilerating, invigorating, recuperating and disease-banishing effects of the Turkish and Roman bath, as the company have reopened their rooms at No. 80 Diamond street, with a new and efficient Board of Managers, and an able, competent and courteous Superintendent, so that patrons of this institution can rely on receiving every benefit and luxury to be obtained from skilled and experienced management. The rooms have been refitted, remodeled and richly furnished, affording to the public an elegant resort for the purpose of participating in this luxurious and healthful exercise.

THE Spaniards are borrowing money to conduct their war in Cuba. This is the last form of effort, and one that will prove of serious import to that power. With prospective political troubles at home, and failing credit, Cuba may yet be free.

NEW YORK jobbing merchants begin to think that discrimination touches them. They have formed a protective association and seek to have discrimination made in favor of their customers in that State. This is carrying the remedy rather farther than they may find it possible to do it.

THE Government has employed EMORY STORRS to prosecute, along with the District Attorney, the remaining whisky cases at Chicago. Mr. STORRS has familiarized himself with all branches of those cases, and will prove a valuable assistant on the Government side. He is a man of strong points, and will render the Government efficient service.

THE *Post* wailingly exclaims, with italicised emphasis,—the troops are in marching order. That is true; and with the next Democratic murder of blacks, they march. GRANT means business, and riot, terrorism and murder are not to be features of this campaign. Retribution is to follow promptly after outrage and murder. The troops are indeed in marching order.

EX-SECRETARY BRISTOW is rendering the country excellent service by his speeches in the Vermont campaign. He is listened to by vast throngs of people, who have for him an unbounded admiration. He will do much for the success of the party, his course having commended him to the confidence of vast numbers. After he is through in Vermont he will be heard elsewhere.

THE district in which BEN BUTLER is running for Congress is his home district. The Essex district, in which he ran for so many years was one in which he had a summer home only, and his right to run there was disputed, and constituted an element of weakness. Where he now runs no such hindrance exists, and it is conceded that he will carry the district without difficulty.

THE arrangement for placing what is properly termed, for shortness, the new four per cent. loan, combines the efforts of both American and European bankers. The larger number of participants, but not its greatest strength, is American; and we hope the result of the efforts put forth will be to place the loan largely on the American market. We attach very much importance to this, and hope it may prove a success.

CARL SCHURZ has fully ventilated the German sentiment in his Cleveland speech, and given the reasons why the vote of the country should be given against TILDEN. The financial question is largely treated of, but he considers the Democracy as having no attitude whatever on that question. They have been for and against hard money, and now their platforms and the letters of acceptance of the candidates are so contradictory, that they amount to nothing. Hence he urges that we do not trust them.

CLONEL ROBERT INGERSOLL is up in Maine, doing duty for the Republican ticket. Here is a description of TILDEN from a recent speech: "What is Mr. TILDEN to-day? An attorney-at-law, an old bachelor. There is no more flesh on him than on an old umbrella. He is one of those oily attorneys you see depicted on the stage. He is a demurrer. He never courted a woman because women can't vote. Lately he has adopted a rag baby that really belongs to Hendricks. He is now spending his time in explaining how he adopted it."

THE Turks are now known to have been committing just the same atrocities in Servia that characterized their proceedings in Bulgaria. They do not hesitate to carry rapine and murder wherever they go, and the evidence of these facts is clear and undoubted. Yet, England, with its wretched Tory Government, has not a word to say, but submits, most supinely to the falsehoods and arrogance of the Turks. It will form one of the blackest records in English history that her Government deliberately permitted the Moslem to murder, with all the horrors of outrage, men and women, Christians of Bulgaria and Servia. And all this for money.

THE New York *Staats Zeitung*, which has supported Mr. TILDEN, is very anxious over the conflicting affidavits of his, which we give elsewhere. It says "if he cannot give a satisfactory explanation he is not a fit man for the Presidency." One or two Democratic papers declare it is a private matter, and is nobody's business. It is not a private matter, as it involves two public crimes—perjury and swindling the Government. The New York *Times*, which brought out the charges, affirms its ability to prove that the two affidavits were actually made. Hence this case must be met, and cannot be sneered down as a campaign lie. Mr. TILDEN must answer.

THE *Post* imagines that all that is disagreeable in relation to TILDEN is false. We hope it will accept the sworn testimony of that hopeful gentleman as true. On the 26th of December, 1863, he made the following oath: "I hereby certify that the following is a true and faithful statement of the gains, profits, or income of SAMUEL J. TILDEN, of the City of New York, and county of New York, State of New York, whether derived from any kind of property, rents, interests, dividends, salary, or from any profession, trade, employment, or vocation, or from any other source whatever, from 1st day of January to 31st day of January, 1862, both days inclusive, and subject to an income tax under the Excise laws of the United States. Income from all sources, $7,118." In his answer, under oath, to the complaint of the St. Louis and Terre Haute railroad, he declares: "That for such services the defendant, TILDEN, made a charge of ten thousand dollars against said second mortgage bondholders, and the said charge was paid, by or on behalf of said second mortgage bondholders, on the 17th of October, 1862; * * * that the defendant, TILDEN, for a part of his services aforesaid, also made a charge of the like sum of ten thousand dollars on account of professional services rendered to the first mortgage bondholders and the receivers, which was paid to him by the said AZARIAH C. FLAGG; * * * and which payment appears under date of November 7, 1862, in a statement annexed to the first report aforesaid, as having been receipted for by the said TILDEN, 'on account of professional services.'" We would like to hear from the *Post* on the morality of perjury. This is TILDEN's own testimony against himself.

THE crisis condition of the Servian war still continues, so far as we have intelligence. The fighting around Alexinatz constitutes the key to the situation. Prince MILAN was evidently on the point of giving up the contest, but General TCHERNAYEFF persuaded him to continue the war. If no serious disaster happens the Servian cause in the battles now in progress, it seems entirely probable that enough help will come in from Russia in a short while to turn the tide of success. Montenegro demands of Servia the continuance of the war till a united peace can be had, as should Servia make a separate peace Montenegro would be compelled to stand the full force of the Turkish armies. There is a movement, looking to the united action of the forces of the two powers, while Crete promises to add to the embarrassments of the Turks. The Servians have stood better amid the fortifications of, and woods around Alexinatz than anywhere else. The Turks have, apparently, better fighting material than the Servians, but General TCHERNAYEFF is evidently working with great energy to bring his forces up to the right mark.

THE collapse of the coal combination, at the East, is hailed by the press, as one of the most important industrial events of the day. It was evidently caused by the decline in the consumption of coal, caused by the enormous advance in prices. The decline is put at 30 per cent. from 1872 to 1875, or 5,262,540 tons. It has been very unequal on the different roads, the Lackawanna having lost but 10 per cent. of its traffic, and the Lehigh Valley but 81 per cent., while the Central of New Jersey lost 34 per cent. and the Reading 38 per cent. during the same period. Loss of business loss of earnings, and increase of debts, has been the rule with these companies, and those which have been fortunate enough to have a strong capital began to perceive that if the combination held together it would involve all in a common bankruptcy. Each man for himself is the rule hereafter, therefore, and the public will richly enjoy its revenge. New Jersey Central suffers worst at first; in February it sold for 109, and now for 40. Delaware & Lackawanna sold for 120¾ in January; yesterday it sold for 81. In Delaware & Hudson the loss has not been so great, though it sells for 78½ and the break in Reading, expected at Philadelphia, was not serious yesterday. But the war has not yet begun, and we shall see before many days which of the companies really has the strength to sustain itself in open competition.

METHODISTIC UNITY.

The committees elected to remove all obstacles to fraternity, as between the Methodist Episcopal Church, and the Methodist Episcopal Church South, has completed its work, and announced the basis formally agreed upon. Just what it all amounts to, we confess ourselves unable to clearly see. Among the Bishops and ministers, and to some extent, among the laity of the two Churches, there has been, for a time past, an informal, and, we might almost say, a formal fraternity. That is, they have interchanged the courtesies due each other, have shown a spirit of kindness and fellowship, and thus testified their regard and forgiveness of each other. This is of more value than the mere formal utterance of fraternal words. We do not understand the newly agreed upon fraternity as involving a consolidation of the two Churches, at all. There is nothing in the basis that speaks of merging the two interests, and the acceptance of the Bishops of the two Churches as one Board, to have conjoint authority over all Episcopal Methodism. This would be a practical, technical union that would obliterate all sectional lines, and make of the two one Church. The fraternal union is simply a declaration of peace between two branches of Methodism. It is as though in our late civil war the Confederate States had achieved independence, and after a period of time, during which each Government had peacefully followed its own career, and in which they had formally fraternized with each other, they had finally determined to formally express the fact that they were at peace. We may be dull, but really we can see but little in such things. The two churches agreed upon a plan of separation long ago—and the separation was made on that plan. The courts were invoked on some property questions, and they enforced, so far as property was concerned, the terms of the plan of separation. So far as we can see, all questions between the two churches, so long as they are separate organizations, have been diposed of, and that the "basis" is, in the main, the merest twaddle. It does not unite the two churches; it does not profess to affect the titles of properties that have already been disposed of by the courts; it does not develop any more or different fraternity than already existed; in brief, it does nothing except to give away a number of weak M. E. Churches in the South to the M. E. Church South.

That this feature will inure greatly to the advantage of the church South, and to the spirit of rebellion and slavery, can, we think, be amply demonstrated. For example, in Jacksonville, Florida, are two Methodist churches—one of the church North, and the other of the church South. That of the South is the stronger of the two, in numbers, wealth and social position, but it is full, to the very marrow, of all the bitterness, arrogance, and rebelliousness of the M. E. Church South, as it was before the rebellion. Of course there is no binding force in the rules adopted by the commission, and trustees cannot be compelled to make transfers of property; but the moral effect of these property rules is in favor of the slave-favoring element of the South having the natives of that country under its control. This will meet with the most decided opposition at the North; and this opposition will rest itself on three facts: 1. That the M. E. Church South, and the slave-holding element it contained, was more responsible for the slaveholders' rebellion, than any element or influence in all the South. It separated on that exact issue of slavery; and from the moment of its separation from the M. E. Church, began to teach that slavery was a divinely ordained institution, thus giving it, so far as the influence of that church went, all the sanctity and authority of the divine law. And it is a memorable fact, that the bitterness of that church, in the interest of slavery, intensified the struggles of the war. 2. It is a demonstrable fact, that the spirit of the Southern Methodism, as regards the late war, the treatment of blacks, and all matters of loyalty to the Government is below rather than above the average political spirit of the South. That is, it is still bitter, revengeful, and malicious. It aims, by finesse to recover its lost power; and should the Democratic party regain power, and attempt to re-develop slavery, it would have a faithful and bitter ally in the M. E. Church, South. 3. That because of the two facts already mentioned, there is the greatest need of the loyal Methodist Episcopal Church employing its utmost power at the South, as a missionary in the interest of religion that has honest loyalty to human freedom and the Government as its basis. And this work needs to be steadily prosecuted till the last vestige of slave sentiment is obliterated from the minds of the young generations of the South.

While in our view, this fraternal arrangement so ostentatiously published amounts to nothing of immediately practical import, its moral influence is wholly in the interest of the Southern church. Its logical result will be the abandonment of Southern territory by the church North; and the Southern church will be shrewd enough to see and press this point sooner or later. Should this be conceded it will be the second great mistake made by the Methodist Episcopal church in this country in treating with dissentient elements. It should never have agreed to a plan of separation at the outset,—as by it, large amounts of property were taken, and it was mulcted in suits in court, of large sums of money. We admit that the logic of the plan of separation involves the recognition of the Methodist Episcopal church South as part of the Methodistic family; but we would never carry a wrong to its necessary logical limits. If there is not an ultimate demand on the part of the M. E. church South for the indisputed control of all Southern territory, it will display a modesty of which we never believed it susceptible. We have heard directly and personally of the prevailing spirit of the M. E. church South,—and all those reports agreed that it meanly ostracised the church North, but would toady its Bishops, when passing through the South, and thus lead them away. We doubt if Bishop HAVEN who most knows the South, agrees to the new plan.

THE "CORNERS" MASSACRE.

Mr. Nasby's Account of the Sad Affair.

How "Six Niggers met Their Dume" That Peace and Fraternity Might be Maintained.

CONFEDRIT X ROADS,
WICH IS IN THE STATE UV KENTUCKY,
August 19th, 1876.

To prevent misrepresentashun at the North I hassen to give a troothful account of an occurrence wich took place at the Corners last week, wich is regretted by every citizen. It will be publisht in every Ablishan paper uv the North that the Democrisy uv the Corners killed six niggers last Toosday, without coz. The killin I admit—the coz I insist the niggers furnisht themselves.

This is a troo statement uv wat will be called the "Corners Massacre."

John Pogram, the Deekin's oldest son, is, and alluz hez bin, and alluz will be a troo Southern shivalry. He wuz reconstru:ted, and accepted the sitooashen, but niggers riles him, wich he is not to be held accountable for, for it's constooshnel.

John wuz in a frame of mind Toosday moonin. He had four acres of grass wich needed cuttin, and he hed tried in vane to git some one to do it. Not a nigger could he hire for love or money, ez they wuz all cuttin their own, and ez we hevnt any Northern whites here, uv course no white man cood be hed to do manyel labor.

And to add to this discontent Joe Bigler hed sejested to him that to save the grass he (Pogram) mite cut it hisself, wich insult he darsent resent, Joe bein handy with his revolver.

John hed bin layin on his back in Bascom's fur two hours, argooin that the South wuz a goin to rooin for want uv labor, when some one remarkt to him:

"There goes Joe."

Joe wuz (I say *wuz*, for Joe isn't now) formerly a slave uv John's father, and John knew that he hedn't nothin to do that wuz pressin, and he went out and hailed him:

"Stop, you d——d black son of a ——!"

"Wat do you want?" was his insolent reply.

"I want you to cut that grass uv mine, back uv the bain, d——n your black heart!"

"I can't do it," wuz the anser.

I will not give the conversashun in full, but enuff to say that the nigger wuz ez impoodent ez he cood be. Finally, when pressed fur a reason fur not cuttin the grass, the nigger sed plumply that he'd do the work of John wood pay him $4 50 that he'd owd him fur work over two years, and pay fur this in advance!

Uv course John had but one thing to do. Roused by this insult to madnis, he sailed into Joe, and Joe hed the insolence to strike bak. And the awdashus nigger wood hev whaled him if the rest uv us hadn't come to the reskoo.

In the melee the nigger wuz killed, and we went back and took a drink.

It occurred to us that this ackshen uv Joe's wuz intendid to bring on a collision betwixt the two races, and we determined to nip it in the bud.

Anticipatin a dreadful conflik, we armed ourselves, determined to sell our lives dearly. Race wars are allus bloody.

We went to the late Joe's house and found that he hed a shot gun, an axe and a hoe, evidently arms to be yoosed agin us.

On the way to another nigger's house to search for arms, we diskivered the nigger in his feeld pretendin to be at work. On seeing us he run until Issaker Gavitt, who is death on a nigger at 60 yards, put a ball through him and he stopped.

Uv course that nigger intendid to rise agin the whites. EF HE DIDN'T WAT DID HE RUN FOR? Troo, we hed shot guns, rifles and revolvers, but wat rite hed he to spose that we meant to yoose em on him?

The next house we cum to we found the nigger a loafin in his front door yard. He hed his hay in all done, and was harnessin his mules to cum to town. There cood be but one interpretashen put onto this move. He wuz a goin to the Corners, to jine the movement agin us. When we askd him "where in h—l he wuz a goin," he ansered in the most feendish manner that he wuzn't aware that it wuz any uv our biznis, and went on harnessin his animals.

Ez a measure uv safety his hed wuz blowed off, and we went on.

I cannot defend the ackshen uv our people after this, except by sayin, that they wuz maddened by wat they hed diskivered, and shot every nigger they cood find. Nor kin I blame em. The niggers have withheld from us that confidence nessary to good feelin. Ever sence they got the nooze uv that Hamburg trouble they hev showed theirselves ez little ez possible, and when they came to the Corners to trade they irritated us by going to Pollock's, and gettin home ez suddenly ez they cood.

Think uv it. Here we wuz in the midst uv a populashen uv inferior beins a thirstin for our blood, armed ez I hev showed, and menacin us in ever way. We found axes and hoes in or about every house, and frekently shot guns, wich they hed bin too cunnin to load till they wanted to yoose em.

And wat wuz more damnin evidence uv ther guilt, the moment we appered to 'em the blood-thirsty wretches, feelin that ther purposes wuz discovered, run like rabbits. Not one uv 'em had the hardihood to stand afore us and anser the questions we put to 'em.

I will say that things wuz done under the heat uv passion, wich I can't apologize for. Two wimmin wuz killed, but it wuz accidental. Issaker Gavitt hed his rifle ded onto the husband uv one uv 'em, and the imprudent woman rushed afore him and reseeved a ball that wuzn't intendid for her. The other aboosed Capt. McPelter by orderin him out uv her house, and uv course his shot gun went off and she expired.

I hev no apology to offer for the takin off uv the first two niggers; our sitooashen must be considered. These people wich is a thirstin for our blood wuz wunst our property and we eggsactid uv em not only obejense but respect. Now, by the ackshen uv a tyranicle goverment, they hev become voters, and insist that afore the law they are our ekals. When they meet us they bow, but they refoose to take orf ther hats, or ackdowledge that they are, in any sense, inferior beins. They come to the poles beside us, they won't work for us onless they choose to, and in every way they impose upon us.

Kin a high-toned shivelry endoor this? It can't be expectid. We want peece, but they must observe the only condishuns on wich peece is possible.

And in their insubordinashen they are abetted by that feend Joe Bigler. When Deekin Pogram, that blessid saint, wantid yaller Tom, wich wuz afore the war his nigger, to work for him, Joe Bigler mockinly urged him to do it.

"There is a scriptooral injunckshen onto yoo," sed Joe to the nigger, "wich is, 'Honor thy father and thy mother, that thy daze may be long in the land.' Yoor moother wuz sold South afore the war when yoo wuz a year old, so yoo can't honor her; but yoo hev yoor father spared to yoo."

Ez Tom is half white, and ez by a singler coincidence he resembles the Deekin, it wuz an insult to that good man wich the niggers all jined in.

But despite all this provocashen I spose the North will howl in this case eggsactly ez it did in that matter at Hamburg, and yoose it aginst us.

Instid uv its bein yoosed ez a reason for votin aginst Tilden, it affords the best reeson for supportin the great reformer. Elect him, and we will hev the niggers in sich a shape that they cannot give us reasons for killin uv em. Give us the controle uv the Government four yeers, and we will make em so valuable to us, that we can't afford to yoose our shot guns on em. For this reason every humanitarian, every lover uv the nigger, ought to work nite and day for our success.

HOME NEWS.

The probabilities for to-day are higher barometer, lower temperature, northwesterly to northeasterly winds, and generally clear weather.

Corner Penn avenue and Sixth street, now in session. Students received at any time. Address for circulars J. C. Smith, A. M., Principal.

Freak of the Lightning.

During the heavy rain storm about five o'clock last evening the residence of Mr. Charles Dillinger, on Spring Hill, Allegheny, was struck by lightning. The electric fluid passed down the lightning rod to within half a dozen feet of the ground, when it flew off to a spike driven into the side of the house, knocked it out of the board and then passed through the wall into the dwelling and smashed a bureau and some other furniture to pieces. Mr. Dillinger entered the room a few minutes afterward and found it full of smoke, but could find no fire. No further damage was done.

Discrimination.

Many dealers, as well as corporations, make fish of one customer and flesh of another, while R. Taggart, 129 Federal street, Allegheny, treats all alike, having but one price for all, and that the lowest consistant with good material and honest and durable workmanship. Now is the time to secure a supply of boots and shoes for fall and winter wear, as prices rule lower now than when the demand becomes greater, and Taggart's is a profitable house at which to obtain the best qualities at very lowest figures. Make it a point to take your wife, children and neighbors with you and realize what bargains are in store for all at 129 Federal street, Allegheny.

IN DANGER OF DEATH.

Probable Fatal Ending of a Recent Saloon Fight.

About two weeks ago Carl Thomas and John Miller indulged in a fight in a saloon on Spring Garden avenue, Allegheny, during which Thomas struck Miller with a beer glass, and the latter retaliated by striking Thomas on the back of the head with a hammer, inflicting an ugly wound. Both parties were arrested, and on the next morning Miller was fined five dollars and costs, which he paid, and Thomas was sent to the Work House for sixty days. Yesterday it was reported in Allegheny that the latter was very ill at Claremont from the effects of the injury inflicted by Miller, and that it was feared he could not recover.

BASE BALL NOTES.

The Alleghenys Defeated at Indianapolis.

The Alleghenys met the Indianapolis club, yesterday, at the capitol of the Hoosier State, and suffered the first defeat they have encountered since the commencement of their trip. It was another eleven inning game. The score is as follows:

Innings	1	2	3	4	5	6	7	8	9	10	11	
Indianapolis	1	0	0	0	0	0	3	0	0	0	2	6
Allegheny	0	0	1	0	0	2	1	0	0	0	0	4

At Union Park yesterday the Sponge Cups, of the Pittsburgh City Hall, laid out the Blotters, of the Allegheny Municipal building, in a five inning game by a score of 14 to 9. The former announce their frosty desire to hear from either the reportorial or legal nine.

New York—Mutuals 4, Bostons 15. Chicago—St. Louis 8, Chicagos 6. Cincinnati—Louisvilles 1, Cincinnatis 3, in eleven innings.

BOARD OF HEALTH.

Regular Meeting Yesterday Afternoon—Routine Business.

A regular meeting of the Board of Health was held yesterday afternoon, Dr. Thomas presiding, in the absence of President Slagle.

A number of bills were read and ordered paid, among which was one from the Hilldale Cemetery Company for burying two small-pox patients who had died in the city hospital.

Dr. McCann complained that the night soilers were again using Penn avenue instead of Duquesne Way, which they were instructed a short time ago to use.

A member of Council from the Fourth ward also objected to the use of Penn avenue by the persons named.

It was found that only one man, a person named Morgan, in the employ of Conrad Freund, a night soiler, was in the habit of offending in the manner mentioned. It was decided that Freund's license should be taken from him.

Captain Crosby Gray, Health Officer, said that not only had Freund no license, but several other night soilers are in the same condition.

A motion was then adopted that no more licenses will be issued until after the next meeting of the Board, and all applications must be made before that time.

Adjourned.

GAS COMMITTEE.

Meeting Yesterday Afternoon—The City's Bills.

The Gas Committee met yesterday afternoon with Mr. Weldin in the chair.

The bill of the Pittsburgh Gas Company for the six months ending June 30th was presented as follows:

To balance	$10,884 96
Gas furnished public lamps, market and station houses	15,958 12
Repairs to lamps and posts	946 82
New lamps and posts	1,800 00
Total	$29,590 60
Less 6,250,00 feet furnished free of charge	4,687 50
Balance	$24,903 10

Mr. Littell objected to the amount of $10,884.96 which was presented for payment as an unsettled balance of the company. This is the amount of Government tax paid on gas consumed by the city, which the company claims the city should pay, and which the city denies liability for. The bill has been regularly presented each half year for some time past, and payment has regularly been refused by the committee. Mr. Littell said that it was an insult to the committee to continually present it, and that the company should know once for all that it will not be paid. The matter, too, is now pending in the courts.

A motion that the amount in question be stricken from the bill, was carried, as was also one to notify the company that in the future the bills will not be approved at all if this balance is again presented for payment.

It was then directed that a warrant be drawn for $14,018.14, the amount due after deducting the bill in dispute.

A petition for 15 lamps on Carson street, from Saw Mill Run Bridge to city line, was received and referred to the Committee on the South Side for examination and report.

A bill of the West End Gas Company for $50 was returned for correction.

Adjourned, after the adoption of a motion by Mr. Littell that in the future the committee meet at 2 o'clock in the afternoon.

A SAD SEQUEL.

The Remains of Andrew Denna Found.

We yesterday published in the GAZETTE an account of a woman who was at the Union Depot the night before in search of her husband who was believed to have been killed at Latrobe. Yesterday the woman, who is named Mrs. Denna, called at this office to give an explanation of the case. She said her husband, Andrew Denna, who is a one-armed man, and was an organgrinder, but not an Italian, left the city on Wednesday to start for Philadelphia, without any money, in search of employment. The next day an Italian who had accompanied him, returned and told that Denna had been killed near Greensburg by the cars and his remains taken to Latrobe and interred. She went to the depot but could learn nothing further, the railroad authorities being unable to give her any information further than that published.

The following from the Johnstown *Tribune*, of Thursday, will give an explanation of the matter:

"Near Latrobe, at 8:30 last night, the crew of the Third National Freight east found the mutilated remains of a man on the track. The body was mangled very much, but still the features were not marred beyond identification if any person who saw him would have been acquainted with him in life. The pockets of the dead man were searched, and some papers discovered, on one of which was the name of Andrew Bena, but nothing to show where he belonged to, or that would give the least clue to his occupation or nationality. The remains were removed to Latrobe, and placed in charge of an undertaker, who decently interred them to-day. In the list of fatal railroad accidents the name alone will appear, but nothing more, and some place in the wide world there may be relatives of deceased who will wonder why they never hear from him."

Mrs. Denna yesterday learned after much trouble that her husband's remains had been buried at Greensburg.

She, with two small children, resides at No 74 Virgin alley, and is in destitute circumstances. She received some temporary aid from two or three charitable parties, and went from this office to the office of the Board of Poor Guardians, where, it is likely, some arrangements will be made, in accordance with her desire, to send her and her children to Philadelphia, where she has friends. Her husband was a soldier, and was drawing a pension for his lost arm. He had his pension papers with him at the time of the accident, and Mrs. Denna desired very much to obtain them, but it appears evident that they were lost, unless those referred to as having been found on his person are the ones. It is a sad case, and the woman deserves sympathy and assistance.

AT LAST.

The Printing Committee Hold a Meeting—The Matter of the "Dispatch" Bills—Monthly Business.

After a dozen or two abortive attempts to get together the Printing Committee finally succeeded yesterday afternoon in getting a quorum, Captain John A. Fox in the chair.

Bids for printing 300 copies of the report of Superintendent of water works and the Assessor of water rents were received and the contract awarded to Dillon & Tellford, of Sewickley, at $60.

Bills amounting to $915.72 were presented and approved.

A bill for $311.60 of the GAZETTE for extra printing was referred to a special committee.

The bill of the *Dispatch* which was laid over at the last meeting of the committee was brought up for examination. Mr. Howell, of the *Dispatch*, was present, and asked what was the objection to its payment.

Mr. Froehlich stated that it was in consequence of a difference between the number of squares charged by the *Freiheits Freund* and the *Dispatch*, the amount charged by the latter being considerably in excess of that by the former.

Mr. Howell explained that the *Dispatch* and the *Freiheits Freund* both have two different measures for ascertaining the number of squares. The Allegheny contract requires 10 lines nonpareil to the square, while the Pittsburgh contract requires 70 words to the square. He said that 70 words on an average make eight lines of nonpareil type. In measuring the *Freiheits Freund* had used the Allegheny measure, instead of the Pittsburgh.

Mr. Froehlich said that he, in company with one or two other members of the committee, had counted the words in some of the advertisements, and had found that the number of words did not correspond with the number of squares charged. In one instance ten squares being charged when the number of words only made six and a half squares.

Mr. Howell explained that occasionally eight lines may not contain 70 words, but on the average they will. He further stated, on information from Mr. Neeb, that the German language is of such a nature that 70 words will not go into 8 lines of nonpariel.

Messrs. Foley, Fox and Froehlich stated that the ordinance being so explicit the bills should be made out in accordance with its provisions.

Mr. Howell—Do you then mean, gentlemen, that we will be required to count every word?

Mr Foley—The ordinance requires it, and I hardly see how we can avoid it. A committee has no right to annul any provisions of an ordinance. If the ordinance itself is inconvenient or oppressive Councils can change it, but we cannot.

Mr. Howell—I hardly think any member of this committee would like to undertake the task of counting all the words in the city advertisements we have published up to date—in fact it would be almost a six months' job. We can count the words, but I am satisfied that if we do the bills will be larger instead of less than they are now.

Mr. Froehlich—We can't help that. The ordinance is there, and we must observe it. But we've counted some of the advertisements and they don't come up to the bills.

After some further discussion, during which it seemed to be the general opinion of the committee that the provisions of the ordinance should be strictly adhered to, a motion was adopted referring the bills to a sub-committee for examination and report.

The bill of the *Freiheits Freund* for the last quarter was approved, after which the committee adjourned.

The first bill of the *Dispatch* exceeded that of the *Freiheits Freund* for same work, $76. In the second bills presented by the two papers, the *Dispatch's* bill exceeded the *Freiheits Freund*, $20. This was for work done subsequent to the presentation of the first bills.

A Fountain in a Desert.

In these dreadful hard times it is a sort of luxury to read over the schemes of the Kentucky Cash Distribution company. It is like listening to the splash of a fountain, or seeing its glistening drops in the heated days of summer. One hundred thousand, fifty, twenty-five and twenty thousand roll glibly over the tongue, and to know that they exist for somebody, and possibly for ourselves, is a real pleasure. But eight days more remain to get your tickets, as the drawing positively takes place in the city of Frankfort on Thursday, August 31, 1876.

FINANCIAL.

Latest Advices Concerning Money and Stock Matters.

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, August 26, 1876.

The fall in coal railroad stocks is the result of the breaking of the coal combination. The panicy feeling still continues, and probably will until after the great coal sale, on Tuesday next. The stocks of other roads suffered, in sympathy with the decline of the coal stocks. The full value of this break in the combination remains to be seen, and a week or more will be needed to fully develop it.

Local financial affairs remain in about the same condition as previously reported. There is a gradual improvement in the demand for currency from country bankers, and fair amounts find their way to sections where the harvests have been finished. The prospects now are that trade in all branches will improve, and merchants in all departments enjoy their usual fall activity. Collections are reported as more liberal, and the deposits in the banks are gradually increasing. The applications for bank accommodations are on behalf of the mercantile trade, and mainly in the way of renewals for short dates. There is a little more inquiry from the speculative element, but the demand was not particularly urgent. All the banks are abundantly supplied with money, and parties readily obtain all the accommodations they require, if able to offer the desired security—the main object just now with parties who have favors to grant.

Another exciting day in the Eastern markets. Pennsylvania sold down to 45⅜ but reacted to 47⅜, when the shorts in Reading were forced to pay 50 instead of 44 for that stock. The Reading corner weakens a little towards the close; the stock selling at 48; Pennsylvania at 46⅜. The New York market recovered somewhat towards the close.

NEW YORK, August 25, 1876.

Money closed active at 2@3; prime mercantile paper 3@4. The customs receipts were $69,000. The Assistant Treasurer disbursed $282,000. The clearings were $35,000,000. Sterling 487@489. Gold opened and closed at 111, with sales in the interim at 110⅞. The carrying rates were 1@2, and borrowing 1, 2 and flat. Governments were quiet and a fraction lower in some instances. Railroad bonds were dull and generally lower. New Jersey Centrals were weak. State securities were quiet, Tennessees were better.

The day opened on the Stock Exchange with a renewal of the depression and excitement in coal shares. The opening quotations for anthracite coal shares were ¼ to 1 per cent. below the closing figures of last evening, and business was hardly opened before there came another deluge of stocks, and prices were tumbling down to the lowest figures yet made. For a short time it seemed as if Bedlam was let loose on the floor of the Exchange, and prices were no object at all in comparison with the desire to get rid of securities as fast as possible. Delaware, Lackawanna & Western declined from 80 to 77, New Jersey Central from 40 to 37⅜, and Delaware & Hudson Canal from 77 to 75⅜. The depression in coal stocks extended to the general market, causing a decline of ⅜@2¼ per cent., still lower quotations from London for Erie assisting the downward movement. Rock Island declined from 104 to 101⅜, Lake Shore from 53⅜ to 52⅜, Western Union from 70 to 68⅜, Michigan Central from 40 to 39⅜, St. Paul common from 33⅜ to 33, Northwest pref'd from 61⅜ to 60⅜ and Erie from 10⅜ to 9⅜. The reported decrease in some of the western railroad earnings for the third week in August also had an unfavorable influence on western shares, and the market generally. Towards noon a great change came over the market, and the bears started to cover. There was some buying for bull account, under which the market suddenly wheeled around and advanced ⅜ to 7⅜ per cent. from the lowest point. This rise was attended with much excitement and animation, and for a time the Stock Exchange again presented a lively scene. Delaware & Hudson Canal advanced from 75⅜ to 83, Delaware, Lackawanna & Western from 77 to 82⅜. New Jersey Central from 37⅜ to 41⅜, Morris & Essex from 90 to 91⅜, Rock Island from 101⅜ to 103⅜. Western Union from 68⅜ to 69⅜, Michigan Central from 39⅜ to 40⅜, Ohio from 11¼ to 12⅜. St. Paul common from 33 to 34⅜, preferred from 66 to 67⅜, Northwest common from 37⅜ to 38⅜, preferred from 60⅜ to 61⅜. Lake Shore from 52⅜ to 53⅜, and Erie from 9⅜ to 10⅜. This advance was followed by another decline of from ⅜ to 3 per cent., the latter New Jersey Central.

In final dealings there was a firmer feeling, and prices advanced ⅜@2⅜ per cent. from the afternoon decline. New Jersey Central rose to 40⅜, Delaware, Lackawanna & Western to 82⅜, Morris & Essex to 92⅜, Delaware & Hudson Canal to 83, Michigan Central to 40⅜, Erie to 10⅜, Lake Shore to 53⅜, Northwest common to 37⅜, preferred to 61⅜, Rock Island to 103⅜, St. Paul common to 34, preferred to 67⅜, and Western Union to 69⅜. There was considerable activity right up to the close. The transactions were 259 000 shares, of which 5,000 were Pacific Mail, 22,000 Western Union, 3,000 Northwests, 24,000 Rock Island, 18,000 St. Pauls, 25,000 Eries, 36,000 Lake Shore, 3,000 Ohios, 15,000 Michigan Central, 76,000 Delaware, Lackawanna & Western, 24,000 New Jersey Central, and 2,500 Delaware & Hudson Canal.

There was a rise of 14 per cent. on Reading stock in Philadelphia to-day, from 88 to 102 per cent. This is in violent contrast with the fall in New York coal stocks. Mr. Gowen, President of the Philadelphia & Reading Railroad, says: A great mistake is made in the amount of coal to be sold on Tuesday. Instead of being large and extraordinary, the sale is about the product of one week. As to the amount of coal on hand, I should say it is only seven hundred thousand tons, which is only half of what there was this time last year, notwithstanding the six months' strike. I have no fear of not being able to compete with other lines. The Reading Railroad has made the last arrangement, and never again will it continue in business with others.

Samuel Sloan, President of the Delaware, Lackawanna & Western Railroad, said to a reporter of the *Evening Post* that if the cause of the depression in prices in Delaware, Lackawanna & Western and Morris & Essex Railroad stocks was desired to be known, he could only refer all inquirers to Wall street, where the bear movement began. Not a share of the stock of either road had been sold by a director. He had understood that seventy thousand shares of Delaware, Lackawanna & Western stock had been sold yesterday, but he had been unable to trace more than eighteen thousand shares as delivered. The company was sound, and stockholders could be assured that they need fear nothing.

Geo. L. Haight, Secretary of the Delaware & Hudson Canal Company, says his company is in a perfectly sound condition. On December 31, 1875, the capital stock of the company was $20,000,000, and out of this capital there remained a balance of earnings to be distributed to the stockholders of $2,629,042, of which $2,300,000 were distributed, and the rest retained in the treasury. Against that showing the company experienced six months of very dull business, but it was not to be supposed for an instant that a corporation that had been able to pay a dividend of 13 per centum in one year would succumb to six months' depression.

Condition of the Markets at Home and Abroad.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, August 25, 1876.

General business appears to be improving somewhat, although there is still room for more improvement. The leading merchandise markets are devoid of any new or important features, to which reference has not previously been made in these columns.

APPLES—The market continues dull and overstocked, and prices are down so low that commission merchants can scarcely get enough to cover cost of freights, packages and commissions; offering at 75a$1.25 per bbl. as to quality and condition. It is probable the adjoining country will be able to supply this market.

BROOM CORN—No. 1 hurl, 8½a9; No. 2 do, 7a7½; choice brush that will work up, 6½a6¾; do. covers, 6a6½; do. covers and insiding, 5½; inferior 4½a5; crocked, 3½a4.

BERRIES—The market continues dull, notwithstanding the arrivals recently have been light and the season is about over; people appear to have obtained about all they want. Elder, Black and Whortleberries quotable at 50a75c ⅌ bucket, as to quality and condition.

BUTTER—There is a continued fair demand for fine table stock, and prices are advancing; prime to choice solid packed, in firkins and tubs, 18a22c; do. roll, 21a22c; Creamery Butter, 28 for solid packed, and 30c for roll. The Chicago *Daily Commercial Bulletin* Aug. 23 publishes a report of the condition of the butter market in the West the present season. According to the reports received from forty-six points chiefly supplying that market, the quality of the butter this season is below the average, the product in Illinois being the poorest, while that of Iowa is fair, and of the other States about an average. The prospect for the fall product is faverable. In some sections the dry weather has injured the pasturage, but the heavy night dews have kept the grass fresh, at most points, and probably there will be no scarcity of feed. The aggregate stock of butter on hand at the points reported in seven Western States is 1,150,550 lbs for 1876 against 1,243,300 lbs for last season.

CHEESE—The demand is less active and the market is easier in tone, although unchanged. Prime Ohio Factory (July make) quoted at 8a8½c to the trade, and 9a9½c in a jobbing way.

EGGS—The supply of fresh is light but there is not much inquiry; quoted at 12a12½c.

FLOUR—The market continues quiet; there is a continued fair local demand for good brands, but no change in prices. We continue former quotations.

Red winter wheat flours	$6.00a6.50 ⅌ bbl.
Amber wheat flours	7.00a7.50 "
Spring wheat flours	5.75a6.25 "
Patent process and fancy white wheat	8.50a9.50 "

GRAIN—The Grain markets are still reported a little tame as compared with what they usually are at this particular time, although business is picking up a little. Wheat is in fair demand, with light receipts and offerings, and prices are firm but unchanged; No. 1 red winter, $1.10a1.15; No. 1 amber, $1.15a1.20. The Oat market is decidedly firmer in consequence of light receipts, and prices are tending upward; quotable at 32a34c on track, as to quality. Corn is in light supply, but there is not much call for it; Ear, on track, 50a52c; Shelled, 53a55. Rye quoted at 58a60c, with but little offering and not much call for it.

GROCERIES—There is a fair degree of activity in grocery circles, but the leading staples present no new features deserving of notice. There has been no important change in values for several days. An increased trade in Coffee is looked for next month, while the demand for Sugars will commence to fall off before long, as it always does at the close of the fruit season.

HAY—The market continues dull, and with liberal offerings prices are weak, but without quotable change. New crop, loose, from country wagons, $8a14; according to quality. Baled $12a14 on track.

MILL FEED—The arrivals recently have been small, but the supply still appears to be equal to the demand, which is light. Bran quoted at $11a12 per ton; seconds and shipstuffs, $13a15; middlings and chopped feed, $18a20.

OILS—Extra winter lard oil, 95c; current make, 85c; No. 1, 78; No. 2, 65. J. V. Lewis & Co.'s brand of winter Miners oil firmer but unchanged; white, 60; yellow, 57; summer make lower and not in demand. As soon as cool weather approaches winter strained oils of all descriptions will command higher prices. Linseed oil firmer at 55a58. Carbon higher, and now quoted at 17½a18c.

POTATOES—Irish rather better, $1.50a1.60 ⅌ bbl. Sweets unchanged at $4a4 50 per bbl for Baltimore, and $5a5.50 for Jerseys.

PROVISIONS—The market continues active, and nothwithstanding the inquiry is mostly for small lots, there is a very fair business in the aggregate; some of our merchants report that they have been very busy all summer. A Chicago exchange, of Thursday, says: "The feeling that cheap corn, and plenty of it, will make hogs cheap the next packing season, causes buyers for consumption to hold off except as they are obliged to supply immediate wants, and brings out free offerings for future from parties who expect still lower prices. The outward movement of meats continues large, but the meats going out are chiefly those cut to order, and there is very little demand for anything in stock that has been manufactured to sell. Meanwhile the chief demand is from parties who have sold short at higher prices, and are able to fill in at a big profit."

THE IRON TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY, August 25, 1876.

Pittsburgh.

PIG IRON—Business continues quiet; the demand, as well as the consumption, is light, buyers are unwilling to anticipate future wants, and the market is dull, unusually so, as compared with what it usually is at this particular time. The unsatisfactory and unsettled condition of the market for the product is the main cause of the depression in the raw article, and until there is an improvement in the former, none can reasonably be expected in the latter. Prices, however, in view of the very light stocks and largely diminished production, are fully maintained; so far as we can learn, there is no disposition to make concessions to effect sales.

MANUFACTURED IRON—The general position of the market remains substantially the same as noted in our last report; business continues dull and unsettled, while prices are irregular. The regular combination rates remain unchanged at 2 15a2 35, according to size of orders; but it is said that some of the outside mills are selling on a two cent basis. The sheet and hoop mills generally are pretty well supplied with orders, but as a general thing business is very dull. The Philadelphia correspondent of the *Iron Age* writes as follows: "The demand shows no improvement, and, if anything, the past week has been somewhat duller than usual. None of the mills are fully employed, and it is the the intention of some to still further curtail production unless the demand improves, which appears very unlikely just now. As may be expected in an oversupplied market, competition is very keen and prices weak, although manufacturers of the best brands hold for, and obtain outside quotations; sales, however, are in small lots, and the aggregate business is unimportant. Ordinary brands sell from 2c to 2·25c; best brands, 2·30a2·35.

NAILS—The Nail trade continues rather quiet, as it nearly always is at this particular time, but the market is in a very healthy condition; stocks are comparatively light, and an increased trade is expected within the next week or two. Prices are faithfully adhered to; $2.85, 60 days, for less than 200 kegs, and $2.75, 60 days, for orders of 200 kegs and upwards. Usual discount of two ⅌ cent. for cash.

HORSE AND MULE SHOES—There is a fair degree of activity, but no change in prices; 4½c ⅌ lb. cash for Horse Shoes, and 5½c, cash, for Mule Shoes.

SCRAP—The movement continues light both in scrap iron and steel, and dealers generally report trade as being very unsatisfactory, that in addition to a very light demand, there is little or no margin for profit.

BRITISH IRON MARKET.

A Sheffield dispatch to the *Iron Age*, under date of the 23d, reports: Scotch Pig—The market is quiet, and there is a fair business doing. Prices are weak. We quote makers' Iron as follows:

Garrsherrie No. 1	64s 6d
Coltness No. 1	67s 6d
Glengarnock No. 1	68s
Eglinton No. 1	56s 6d

Manufactured Iron.—There is a little better demand, and a fair business has been done. Prices, however, are weak.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
FRIDAY August 25, 1876.

The market for both Crude and Refined continues very firm and considerably excited, with a still further advance as compared with Thursday; United certificates were quoted this P. M. at $3a3.02½, the highest point it has touched yet. A 200 barrel well is reported in the Warren district, but it does not appear to have made the slightest impression on the market.

Refined also strong and advancing; New York, 21; Philadelphia and Baltimore, 20¾, equal to 17¾ a17½ on cars here. A reaction within the next day or two is not improbable, as the advance recently has been too rapid to continue much longer.

Oil Barrels in steady demand but unchanged; countries, $1.50; city make, $1.45a1.50, as to size.

The Grain Trade.

The Eastward movement of breadstuffs by lake last month was extremely light as compared with former years. The tabular statistics of the Buffalo *Express* show that the aggregate receipts at that port during the month, including flour reduced to wheat, were 5,816,167 bushels, which is 3,784,833 bushels less than the receipts during the corresponding month last year, and three to four million bushels less than any corresponding month in the years since 1870. The decline is largely in wheat, which shows some 3,000,000 bu less than last year. Corn was 200,000 bu less, while in oats there was an increase of about the same quantity. The falling off in flour during July, compared with the same month last year, was 46 181 bbls, and from the opening of lake navigation to the end of July, compared with the corresponding period last year, the decline is 148,797 bbls. The total grain receipts by lake since opening, including flour reduced to wheat, are 21,076,035 bu, being 1,709,815 bu less than the corresponding period last year.—*Chicago Inter-Ocean.*

Receipts at Tide-water.

The quantity of flour, wheat, corn and barley left at tidewater, Albany, from the commencement of navigation to the 14th inst., inclusive, during the years 1875 and 1876, was as follows:

	Flour, bbls. Decrease.	Wheat, bu. Decrease.	Corn, bu. Increase.	Barley, bu. Increase.
1875	34,700	9,294,900	2,647,000	....
1876	13,700	7,823,300	2,834,600	114,500
	21,000	1,471,600	187,600	114,500

By reducing the wheat to flour the quantity of the latter left at tidewater this year, compared with the corresponding period last year, shows an increase equal to 315,310 bbls.

Chicago Seed Market.

The demand was quite urgent for timothy, and the movement was again brisk. The offerings were lighter as compared with yesterday, and receivers were for this reason firmer in their views. The entire range at which sales were made was $1.40a1.80. Prime seed sold mainly at $1.70a1.75; sales of good lots were made at $1.60a1.65, with fair selling at $1.50a1.55. A small lot of good medium clover sold at $9. Flax steady but quiet; sales of good were made at $1.20a1.21.

RIVER NEWS.

State of the Rivers, Movements of Steamboats, &c.

THE stage of water last evening was 18 inches by the stone marks. The weather yesterday was cloudy and sultry, with indications favorable for rains. Another slight swell within the next day or two is not improbable.

CAPT LEE'S new steamer, being built at Metropolis, will be called Coahoma.

THE Exchange is laid up at Cincinnati, and the Jno. L. Rhoads is loading there for New Orleans.

THE Mary Houston will commence loading at Louisville in a few days for New Orleans, with Capt. Chas. G. Schultz in command.

THE steamer Cons. Miller departed from Memphis at 6 o'clock P. M. Tuesday, with 200 bales cotton, 20 bales rags, 200 bbls oil, and 25 cabin passengers.

THE new screw propeller, for excursion purposes, built at Natrona, twelve miles above Pittsburgh, is 36 feet long, 11 feet beam, 4 feet depth of hold, and owned by Gus. P. Snyder.

A LATE Memphis paper says: An unknown man by the name of Campbell died on board the steamer Frank Forrest, on Saturday last, while said steamer was on its way to this city. His wife is supposed to live at Baraxfield, Allegheny Co., Pa.

THE Fanchon arrived from Cincinnati out ten o'clock Thursday night, and Capt. Sweeny expected to get away at daylight this morning. She had to lighten up considerably before she could get through Deadman and the Trap. W. W. Hall and James Hamilton are her pilots.

AT a meeting of steamboatmen, in Cincinnati on Wednesday morning, the following gentlemen were delegated to represent Cincinnati at the meeting of the National Board of Steam Navigation at Baltimore September 6: Thos. Sherlock, David Gibson, Jas. S. Wise, Albert Stein, A. Donnally, Lewis Glenn, and H U. Hart, with power to add others.

IT appears that a few days ago one of the U. S. Engineers inspecting the work on the Kanawha Lock, found it important to come down to Charleston in a hurry, and one of the engineers on the Dredgeboat was prevailed upon by him to pilot the Ianthe down to Charleston, so that he might get there in time. Of course this was irregular, and the Assistant Local Inspectors at Gallipolis are going to 'investigate.'

THE Cincinnati *Gazette* of Thursday says: The City of Portsmouth, although laboring under the pressure of opposition, is a favorite packet in the Chilo trade, principally because of the accomodating spirit always exhibited by her officers. Yesterday morning she brought down 85 cabin passengers. Week before last she carried 312 ladies as regular passengers. She also carries considerable freight, including tobacco, notwithstanding her rate is $1 ⅌ hhd., while the Trout carries it for 75c, and the Bonanza for 50c.

AT a meeting of the steamboat and coal men held at the office of Woolfolk & Co. in Louisville, on Wednesday, the following gentlemen interested in the marine interests of the west were appointed delegates to attend the meeting of the National Board of Steam Navigation at Baltimore, Md., Sept. 6: Geo. Ainslie, R. H. Woolfolk, A. H. Dugan, M. Nippert, T. James, H. Verhoeff, Jr., F. Carter, M. W. Satterwhite, H. E. Harper, H. Wehmhoff, J. Howard, Moses Irwin, Pink Varble, B. C. Levi, D. Ferguson, Louis Kean, J. Cromey and John Hoffman. The chairman was authorized to fill vacancies.

A St. Louis special to the Cincinnati *Commercial*, under date of 23d, says: The Belle of Shreveport left for New Orleans, drawing 6½ feet. The E. O. Stanard and Future City follow on Saturday. Rates are 40c for flour and 20c ⅌ 100 for pound freight. The C. K. Peck, which has been running as an independent boat to Louisiana for the past month threw up the sponge and withdrew to-day, leaving the Keokuk Northern Line in possession of the field. The Fontenelle is due to-night, and returns to Pittsburgh the last of the week. Capt. R. A. Owens, clerk of the steamer Natchez, accompanied by his bride, passed through the city to-day on their way to the Centennial.

ADMINISTRATOR'S SALE

OF

VALUABLE

Real Estate.

Estate of Henry R. Beeson, Deceased.

By virtue of an order of the Orphans' Court of Fayette county, Pa., I will sell at public outcry on THURSDAY, AUGUST 31, 1876, the following described Real Estate, late property of HENRY R. BEESON, deceased, situate in Union borough, Fayette county, Pa., viz.:

1. About five acres of land, more or less, situate on the west side of Pittsburgh street, in Union borough aforesaid, near the mouth of Jacob's run adjoining lands of Nathaniel Brownfield, heirs of Dr. Hugh Campbell, Richard Miller, and land last hereinafter described, on which are erected a large Flouring Mill, Spoke Factory and Dwelling House. This property contains a valuable Quarry of Hydraulic Limestone and a three foot vein of Coal, which can be mined or quarried together. Either steam or water power can be used in running the mill. The buildings are all in good order, and the mill fit for immediate use.

2. About four acres of land, situate on the north side of the National Road, at the west end of town, formerly the property of Jesse Beeson, adjoining land of George W. Rutter, A. W. Boyd, heirs of Hon. S. A. Gilmore, Hon. Daniel Sturgeon, Methodist Episcopal Church, and property hereinafter described, on which are erected a large Cement Mill, Cooper Shop and Three Dwelling Houses and outbuildings. Together with this property, and as appurtenant thereto, will be sold the Mill Race running through said borough, and furnishing very desirable water power. This Cement Mill is the manufactory of the celebrated Phoenix Hydraulic Cement, and the mill is now in excellent repair and fitted for running by either steam or water power. The Dwelling Houses and Cooper Shop (for the manufacture of Cement barrels) are in good repair. The well known character of the Cement manufactured at this mill, and the condition and convenience of everything necessary to make it, render the property well worthy the attention of persons desiring to engage in a good, safe and profitable business.

3. Six acres and ninety-four perches of land, lying between and adjoining the properties hereinbefore described, on which are a first-rate Quarry of Hydraulic Limestone, and three foot vein of Bituminous Coal. The coal and limestone can be worked together, and the former furnishes sufficient fuel for the burning of the latter. A portion of this property is valuable also for pasture or building lots. This land was purchased by Article of Agreement from Hon. S. A. Gilmore, now deceased, and will be offered for sale, first subject to the payment of the balance of the purchase money, and then free from encumbrances. It is a valuable addition to the Cement Mill property because of the Limestone and Coal.

The above described properties will be sold either whole or divided to suit purchasers, as may prove best.

TERMS—Ten per cent. of the purchase money to be paid on day of sale, the remainder of one-half on confirmation of sale, and the balance in one year from date of confirmation with interest.

Sale to begin at one o'clock P. M., at the Cement Mill.

W. H. BAILY,
Administrator.
